Desk bar billiards - felt & marking template

Mini table   ball 9.53 mm   scale 1:5.00

playing area 160.1 x 284.1 mm

PRINT AT 100% / 'Actual size' - check the 50 mm bar on every page.

Pages are numbered row-col; tape them together on the

alignment crosses (2 rows x 1 cols).

Solid outline = felt cut line (it butts up to the rail cushions).

Hole circles   = cut the felt at 11.4 mm.

Black dot   = black skittle.   White dots = white skittles.

Dashed circles = alternative white position (in front of the 50s).

Red dot = red-ball spot.   White dot in the D = starting spot.

Mark the spots through the paper with an awl or a fine pen, then

cut the holes with a sharp craft knife.

Scoreboard scale

PRINT AT 100% / 'Actual size' - check the 50 mm bar below.

Cut out the two dashed strips and glue them to score_face: the digit strip under the bottom row, the multiplier strip down the left-hand edge. The grey outline is the plate and the grey bars are the slots - they are there to line it up, not to cut.
